

You have nothing to lose but the pain!!!

At first magnets should be worn 24 hours a day. Each person responds differently to magnetic therapy. We have heard testimony of how well magnetic therapy works. Many people begin to feel results after wearing the magnets for only minutes to a few hours. In most cases the results are gradual, taking a few days to notice results. In some rare cases even a few weeks.

Magnetic Therapy

Has been know to relieve many major conditions such as: Acne, Allergies, Asthma, Back Aches, High Blood Pressure, Bunions, Bursitis, Diabetes, Carpal Tunnel, Chronic Fatigue Syndrome, Colitis, Cramps, Earaches, Fibromyalgia, Frozen Shoulder, Heel Spurs, Insomnia, Migraines, Osteoporosis, Poor Circulations, Rheumatoid Arthritis, Tendonitis, Tennis Elbow, and many more.

Testimonials

*Cindy, 35, a nurse, developed painful trigger points in the upper back, neck, and shoulder blades, the likely consequence of continually lifting patients at the hospital where she worked. Using magnetic therapy alone, the pain was reduced to a large degree and mobility enhanced.

*Carlyn, 56, has a damaged rotary cup in her shoulder and has been unable to move it in any direction very far, and suffered from pain for many years. After only days of magnetic Therapy, she now has a greatly increased range of mobility, and suffers very little or no pain.

*Darlene's Tendonitis has given her freedom of mobility and reduced pain after only one day of Magnetic Therapy.

Any self-help application is the sole responsibility of the user.

The use of magnets should not replace treatment of a qualified medical professional.

***Precautions:** Do not use magnets during pregnancy, with a pacemaker or defibrillator, Persons on medication (prescription drugs) may find the medications to be more effective with magnets, and dosage may have to be adjusted by your doctor.

VOICES OF THE EXPERTS

Noted clinician, physician and lecturer, William Philpott, M.D., from OK, founder and fellow of the Orthomolecular Psychiatric Assn., member of the society of Environmental Medicine and Toxicology, co-founder of Bionotics, inc and a published author of more than six books and dozens of reports, has practiced medicine for over 40 years, has successfully treated over 7,000 patients with magnetic therapy in the last five years, and has based his findings not only on independent authoritative research, but on his own years of clinical experience and observations.

"Magnetic energy has a beneficial effect on blood circulation, lymph flow, hormone production, nerves and muscles." Dr. Ulrich Warnke, M.D. Magnets to Overcome Pain, The New Healing Method

"The Application of a magnetic field has the virtues of simplicity, freedom from danger and low cost. It offers the lay man or woman a suitable form of self treatment for the minor ills of everyday life." Dr. Evelyne Holzapfel Magnetic Therapy

"We use magnets as a part of a multi-treatment approach that often includes massage and nutritional supplements. The fascination thing about the magnets is that patients often report feeling warmth and reduced pain within minutes, the effect of increased local circulation created by the magnets." In Birkners experience, the magnets are not only effective, but they are safe. "There are no side effects as you often see with pain medication." Kathy Birkner, CRNA, Ph.D., has been successfully using magnets therapeutically for nearly eight years in such cases as muscle trigger points for muscle pulls, general aches, sprains and pains, athletic injuries, bursitis, tendonitis, and lower back strains. Magnetic Therapy

"Natural Whole
Body Healing"

We are all very much aware of our
constant need for air,
water, and food!

Science has now proven that
the Earth's magnetic force to
maintain health is just as
important!

THE IMPORTANCE OF MAGNETISM

+Magnetism is one of the Earth's oldest natural forms of healing energy: affecting every living system, as it has for millions of years, utilizing whole body healing naturally using the Earth's force of magnetism.

In recent years developments in healing through magnetic and electrical therapies have increased dramatically. Treatment has been shown to increase healing by 50% or more.

Scientists have established beyond any doubt that all living cells are electrical in nature. The functioning of the cells and nervous system of every living being is based on the direct current (DC) and pulsed energy. **Without this energy, there is not life...** Each individual cell possesses a positive electrical charge on its outer membrane.

The Earth is surrounded by a magnetic field.

This magnetic field affects everything and everybody to a varying degree.

Wearing magnets works on your entire body. Your blood has iron in it, which is naturally attracted to the magnets. This makes your usually sluggish blood course more rapidly through your body. Now several things transpire when this takes place. **Increased circulation** so that many people who once complained of cold extremities say their feet are warm again. Because of the increased circulation, endorphins are forced to run rapidly through your body. **Endorphins are the "healing Warriors" of our bodies.** Endorphins do not pick and choose what they will or will not work on so as they run around your body a **"whole body healing"** is taking place. You feel better all over including increased energy.

The Earth is a huge magnet

A long, long time ago...

The Earth was surrounded by a much stronger negative magnetic field than that which exists today. It is noted that the Earth's magnetic field has decreased by approximately 90 % over the last 4000 years, with a full five% decline in the last 100 years. Many factors in our modern environment further shield us from this natural earth energy which we rely upon for our health and well being. Electric smog from television, radio, electric blankets, household appliances, and power lines can be harmful, according to the U.S. Surgeon General. The iron and steel of today's buildings can deplete the magnetic field of the earth by more than half. Dr. Nakagawa, the Director of Tokyo's Isuzu Hospital stated that this "Magnetic Field Deficiency Syndrome" interferes with normal body functions. By simply supplementing the earth's natural energy field, many discomforts may vanish. Using magnets approximates what the earth's geomagnetic field used to be.

"Magnetic Field Deficiency Syndrome"

Was identified in Japan in the late 1950's. It is characterized by symptoms such as: lack of energy, insomnia, generalized aches and pains, upper back, and neck stiffness, frequent headaches, dizziness, constipation, etc. These symptoms closely correlate with our North American version "Chronic Fatigue Syndrome"

The principle of magnetic healing power is this: Electrically charged elements in the bloodstream— positive and negative minerals— are attracted to the corresponding poles of biomagnets placed on the skin over the injured tissue. The emitted force stimulates the flow of nutrient-rich blood to the injury site, which would otherwise be hampered by local constriction and inflammation. The boosted blood flow draws more of the biochemical agents of healing to the site, promoting repair and countering localized muscular spasms that often accompany trauma. This response also helps flush out biochemical waste products.

PRODUCTS AND PRICES

SINGLE BRACELET/ANKLET

6" TO 9" _____ \$11.00

9 1/2" TO 12" _____ \$13.00

DOUBLE

6" TO 8 1/2" _____ \$16.00

9" TO 12" _____ \$18.00

TRIPLE

6" TO 8.5" _____ \$23.00

12" TO 14: _____ \$26.00

NECKLACE

15" TO 20" _____ \$18.00

BETWEEN 50,000–60,000 GAUSS

EACH DOUBLE BRACELET OR ANKLET PUTS
OUT A GAUSS (MAGNETIC POWER) OF
42,000 TO 47,000
THAT'S A LOT OF POWER

ADD 1/2 INCH TO ACTUAL SIZE OF WRIST,
NECK OR ANKLE FOR CORRECT ORDERING SIZE
